HEMEROCALLIS

This group of plants has increased in popularity by leaps and bounds, since the introduction of many new hybrids of unusual merit.

Today, with the great range in time of bloom that is possible to attain with the wise selection of the right varieties, it is possible to have continuous bloom from mid-May to the last of September. Hybridizers have also made it possible to have a wide range of color, including about all shades of yellow, gold, red, mahogany, pink, brown, with a great variety of markings and shape of flower.

It can be truly said that Hemerocallis will grow almost everywhere. They are very tolerant of extremely dry locations, where hardly anything else could survive. They do well in a reasonable amount of shade, and will tolerate quite a moist situation. In short, they are an all-around good perennial.

While a good number will be kept potted as usual at our sales grounds in Detroit, the large variety on this list makes it inadvisable to keep this many varieties in stock there, so in most cases orders will be filled from the nursery as ordered with several days notice. As long as the order will be promptly filled, most orders will be furnished bare root.

All varieties not priced are 50c each.

We hope that you will explore this field and get as much pleasure out of Hemerocallis as we have.

Apricot — Delightful fragrant blooms of apricot yellow. 2 ft. Early.

August Pioneer — Chrome yellow with outer half of petals flushed red. 34 in. Late. \$1.50.

Auriole — Deep yellow. Blooms in June. Produces lots of flowers. 2 to 2½ ft. 75c.

Bagdad — So named for its rich combination of colors — clear orange throat, with outer petals coppery red over orange veins and mid-zone madder brown. Large 5 inch flowers. Fragrant. Really unusual. 3 ft. July. 90c.

Bay State — Fine, large, clear, smooth yellow flowers of perfect form. 36 in. Early midseason. 75c.

Belle of Natchez — Deep golden yellow color. A strong grower and a good multiplier. 30 in. July. \$1.00.

B. H. Farr — An outstanding variety. Extra large, full flower with gracefully recurved petals. Glowing rosy peach, attractive, parallel darker veinings. Throat pale, no eye. General pastel coloring. Good evenings. 3 ft. June to September. \$3.00.

Boutonniere — A profusion of miniature flowers with wide open, overlapping and recurving petals. Sepals clear yellow, petals light rosy peach and apricot with trace of mid stripe. Grassy foliage. Long period of fall bloom. Neat, free and graceful. Deciduous. 3 ft. Blooms late August into October. \$1.00.

Buckeye — Like Mikado, bunch flowered and a month earlier. Prolific in growth and bloom. Good evenings. 3 ft. June. 90c.

Calypso — A clear canary-yellow night bloomer. 40 in. Late mid-season. 75c.

Cinnebar — Fine delicate shade of brownish red, petals and sepals of gold-glistening, throat is cadmium yellow, outer half of petals sprinkled with right, fulvous red. 30 in. Mid-season. 75c.

Citrina Hybrids — The strain that we have is a dainty sulphur-yellow color. 3 ft. Late midseason. 90c.

Dauntless — Large, pale yellow with pastel-blended mid-zone. Wide and overlapping petals. 4½-5 in. spread. Flowers of fine substance in the pastel class. Exceptionally fragrant. Midseason. 3 ft. \$1.50.

D. D. Wyman — Large flower, good orange. Inside trumper a deeper colored halo. 2½ ft. July-August.

Dr. Regel — An orange yellow. 30 in. May.

Duchess of Windsor — A lily that everyone admires. The base color is cream with a golden tint and just above the throat there is a flush of rose. The form is lovely with broad petals spread wide and open. Vigorous. 24 in. Early. \$1.25.

Flava — The old, fragrant "Lemon Lily." Clear lemon yellow. Early. 3 ft.

The Gem — Rich golden yellow. Moderate grower. 2½ to 3 ft. July-August.

George Yeld — Large open flowers six inches across, with wide petals of canary yellow, brushed red; this color intensifying toward the throat, where it becomes deep red, then suddenly terminates with a deep clear yellow star at the throat. 30-36 in. Midseason. \$1.25.

Golconda — Golden yellow trumpet shaped flowers. Dependable bloomer and good propagator. 30 in. July. \$1.00.

Gracilis — A dwarf. Fine grassy-like foliage, bright yellow flower. Early. Good for borders. 18 in. \$1.00.

Gypsy — Brilliant deep orange flowers with slender stems. 3 ft. Early midseason.

Harvest Moon — A luscious apricot blend, the flowers large and rounded, with full, wide petals of extra heavy substance. 34 in. \$1.00.

Hawaiian Moon — Deep wine. If you like this color, this is a must. 3 ft. July. \$2.00.

Hyperion — Second in the 1950 list of the Hemerocallis Society. Large and waxy canary yellow of a luminous shade. Heavily fragrant. 4 ft. July-August. 90c.

Imperator — Large, open star shaped flowers of orange-red with yellow throat and mid-lines. 42-48 in. Late midseason. \$1.00.

J. A. Crawford — Rich apricot-yellow shaded light cadmium. Many flowers on 4 ft. stems; at their best about June 25th. Good for light shade.

Kokomo — Lemon yellow. Medium sized flower. Prolific bloomer. 2-2½ ft. June and July. Good. \$1.25.

Kwanso Flora Plena — Orange flushed with red, similar to Fulva, only double. 42 in. Midseason. Prolific grower. 3 ft. July. 75c.

Leonian Hybrids — Mostly red and maroon shades. 2 to 2½ ft. June-July. 75c.

Lena Hoover — Dark mahogany red. Large flower, tremendous grower. 3 ft. July. 75c.

Linda — Large flower with crinkled petals, based golden yellow, cinnamon flecked to buff tones with a red eye. All in sharp contrast to the bright and clear yellow sepals. Unusually long 5 week blooming season. 3 ft. July-August. \$1.25.

Lovett's Orange — Very large flower, heavy substance of flower, a prolific and long bloomer. Color rich golden yellow, bordering on orange. 3 ft. June and July. \$1.00.

Luteola Major — Orange yellow. 3 ft. Late midseason. 75c.

Margaret Perry — Brilliant orange - scarlet lined with yellow. 4 ft. Late midseason.

May Sadler — Nearest to red. A really beautiful creation. 2½ ft. June-July. \$1.25.

Middendorffii — Early, yellow orange. Good bloomer and multiplier. 2 to 2½ ft. May-June.

Mikado — The large spot of mahogany red in each petal contrasts sharply with the rich golden yellow in the rest of the flower. Near the top of the list in all Hemerocallis selections. 3 ft. June to August.

Modesto — Dwarf and slow grower. Velvety red. Unusual color and very scarce. 2 ft. July-August. \$1.50.

Mrs. W. H. Wyman — Light canary yellow. Open trumper type. 3 to 3½ ft. July-August.

My Destiny — Bright yellow. Good grower. 30 in. June and July. \$1.25.

Ochralucca — Lemon yellow flowers, that are more trumpet shaped than most, closing up at night. 3 ft. Late July.

Ophir — An old timer that is still one of the good ones. Dominates July in spite of extreme heat or dry weather. Large, 5 in. wide, tall, crisp, clear, bold, heavy textured, waxy golden yellow in 6 in. long, recurved trumpet form on strong

and weatherproof scapes. The inside of a fresh bloom is a reflected haze of deep gold. Good evenings. Exceptionally fragrant. 4½ ft. Midseason. \$1.00 each.

Persian Princess — The petals are deep velvety red with a heavy overflush of purple, the sepals are a shade lighter, but with the same depth of color. 40 in. Early midseason. \$1.25.

Princess — Large flowered, clear and evenly toned lemon yellow, reversed green gold. Spread of flower, 5 in. Buds are large, green gold. Superb form, substance, and behavior. Erect and much branched. Good evenings and at night since new blooms open while old ones close. Exceptionally fragrant. 2½ ft. July. \$2.00.

Purple Waters — Strong wine purple, full open flowers. long season of blooms. A dandy. 36 in. Early midseason. \$1.25.

Queen of May — Taller than most early varieties. Pale apricot orange. A very prolific bloomer. 30 in. \$1.00.

Rajah — Large gayly colored English red with conspicuous eyes zones as in Mikado. Throat is pale orange with greenish tinge. One of the longest blooming season, most flowers and best garden show of any Day Lily. Good evenings. 3½ ft. July to late August. \$1.25.

Rose Parade — Strong grower. Bright old rose. Good propagator. Very attractive. 3 ft. June and July. \$2.00.

Sirius — Rich orange with famed eye zone. Petals charmingly crinkled. Very fragrant. 3 ft. July.

Soudan — Medium large, 4 in., empire yellow flowers. Very full and recurved lily type, with broad, pleasingly creped and crinkled petals and sepals. Fragrant. Good evenings. 36 in. Midseason. 75c.

Springbrook Red — A new introduction of Springbrook gardens of Mentor, Ohio. A bright attractive red with some depth. 36 in. Midseason. \$2.00.

Sunny West — Immense soft canary yellow flowers of uniform color throughout. One of the finest day lilies. Fragrant. 4 ft. Medium late. \$1.25.

Sweetbriar — Lustrous flower, larger in size and much better formed and branched than Fulva Rosea. The flesh pink petals and sepals are well reflexed, showing a delicate yellow cup. 40 in. Midseason. \$1.25.

Theron — Large, full, dark mahogany-red. Throat deep gold, producing a striking purple and gold effect. 30 in. Midseason. \$1.00.

Thunbergii — Lemon yellow. 4 ft. July-August.

Venice — Glowing deep red. Midseason. About 3 ft. Don't pass up this red. \$1.75.

Vulcan — Even toned, light velvety maroon with faint golden brown mid-rib; throat of the medium large (4 in.) flower is golden orange. A very showy variety of deepest tone. 30 in. Midseason. \$1.25.

Wabash — Brighter red than Venice. Good bloomer. July. 3 ft. \$1.00.

Witchita — Burnt sienna, produced by faint red tints over greenish yellow. Very unusual and attractive form and color. 2-2½ ft. July. \$1.50.

COLLECTION No. 1

One each of the following varieties: Bagdad, Buckeye, Hyperion, Lena Hoover, May Sadler and Rajah. Total value, \$6.35. This collection for only \$5.50.

COLLECTION No. 2

One each of the following varieties: Mikado, Margaret Perry, Ochralucca, Thunbergi, D. D. Wyman. \$2.50 value. All for just \$1.75.

COLLECTION No. 3

One each of the following varieties: Springbrook Red, Hyperion, Rajah, George Yeld, Rose Parade. \$7.40 value. All for only \$6.50.
